

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: T. S. Ramakrishnan

Group Art Unit: 2125

Serial No.: 09/705,674

Examiner: S.R. Garland

Filed: 03 NOV 2000

Attorney Docket: SDR-059 (60.1421)

Title: METHODS AND APPARATUS FOR REMOTE REAL TIME OIL FIELD
MANAGEMENT

I hereby certify that this correspondence is being deposited on this day with
the United States Postal Service as first class mail in an envelope addressed
to: Commissioner for Patents, Alexandria, VA 22313-1450.

David P. Gordon April 20, 2004
David P. Gordon Date

Honorable Commissioner for Patents
Alexandria, VA 22313

Sir:

DECLARATION OF DAVID P. GORDON

I, David P. Gordon, hereby declare that all statements made herein of my own
knowledge are true and that all statements made on information and belief are believed to
be true; and further that these statements were made with the knowledge that willful false
statements and the like so made are punishable by fine or imprisonment, or both, under
Section 1001 of Title 18 of the United States Code and that such willful false statements
may jeopardize the validity of the application or any patent issued thereon.

I am an attorney of record in the instant application. On May 4, 2000, I received a
letter dated May 2, 2000 from the Applicant enclosing a patent memorandum dated April
12, 2000 which supports the specification and claims of the above-referenced Serial No.
09/705,674. The letter and patent memorandum are attached hereto as Exhibit A.

From May 4, 2000, and consistent with the work load in my office, a first draft of a patent application based on the patent memorandum was diligently prepared and completed on September 7, 2000 and forwarded to the inventors for review. After receiving the first draft, the inventors diligently reviewed the first draft and returned their comments, and a second draft was completed on October 25, 2000. Based on additional comments, a final draft was completed on October 31, 2000 and the application was filed on November 3, 2000.

Date: April 20, 2004

David P. Gordon
